

# Thank you Letter

Dear Student,

I would like to personally thank you for agreeing to participate in this exercise. Your, input will be very valuable to me in my efforts to analyse gamification on the dissertation process. Once again may I remind you that your answers will be used for statistical purpose only and collected data will be dealt with great confidentiality.

As a participant, you can view a preliminary summary of this exercise online at <http://jonccassar.github.io/Gamification/> and if you are interested in gamification I encourage you to follow my posts on twitter at <https://twitter.com/jonccassar>

May I conclude this letter by wishing you good luck in your dissertation and in your studies.

Thank you.  
Jonathan Cassar
